El Paso Seed Co.'s New Crop

BULK GARDEN SEED

Is on Sale throughout the Southwest by your local merchant. Our Seed is put up in convenient sizes to meet your requirements ranging in price from 5c to 20c.

All our SEED is tested for purity and germination before being packed, and you can rest assured that you are buying only the Best Tested Reliable Seed obtainable. We have packed in these cases the same High Grade Seed that we supply our Truck Gardeners.

Over a quarter century experience in distributing seeds adaptable to this Great Southwest Country, places us in position to supply you with Seed that will produce results.

Each Case has a convenient Planting Calendar telling you when and how to plant EL PASO SEED CO's TESTED RELIABLE SEED, in the Southwest.

If your Local Merchant does not handle our Seed Order direct from this Catalogue.

Sprayers - Dusters - Planters

BROWN'S OPEN-HED

Four Gallon Tank—Compressed Air
5 in. Opening
Galvanized Steel, \$5.50

BROWN'S FUN-L-FIL

3¾ Gallon Tank
Compressed Air
3 in. Opening
Galvanized, \$4.25

FEENY DUSTER \$3.50

VOLUNTEER DUSTER Price \$3.50

AMERICAN BEAUTY DUSTER \$20.00

We also carrying in stock a complete line of small hand Dusters and Sprayers from 20c up.

Also large Wheelbarrow Sprayers.

PLANET JR. GARDEN TOOLS

No. 22 JIFFY—SEEDER \$ 9.00

No. 4D HILL AND DRILL \$16.50

No. 25 Planet Jr. Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow. Price \$22.50

No. 300. DRILL SEEDER \$20.75

No. 157. TWO-ROW SEEDER.... \$48.50

ACME CORN PLANTER, price \$ 1.50

SEGMENT CORN PLANTER \$ 2.50

MASTERS RAPID PLANT SETTER Price \$ 5.50

CAHOON HAND BROADCAST SEED SOWER Price \$ 6.00

CYCLONE SEED SOWER, Price \$ 2.25

MACABEE GOPHER TRAP. Price Postpaid 35c each; 3 for \$1.00

ALL ABOVE PRICES F. O. B. EL PASO

PAPER PLANT COVERS

Unbleached Flat Paper Plant Covers. An inexpensive and economical plant protection. Packed 1000 to bundle.

Size, 18x22—approximate weight 28 lbs. per 1000—100 for 50c; 1000 for \$3.50; 5000 or more at \$3.25 per 1000.

Prices f. o. b. El Paso.

El Paso Seed Co.'s Planting Calendar

Owing to the diversity of the soil and climate conditions of the great Southwest, it is impractical to follow without some deviation any table that might be formulated. We believe this table is as nearly correct as any table can be made, yet the time of planting must vary with each season, and so seldom are the seasons at all similar that there is always an element of risk for the man who plants early. Each month, too, requires certain varieties best suited to the season and purpose for which it is planted.

VEGETABLE CALENDAR FOR THE HOME GARDEN

	NO. OF PLANTS PER OUNCE OF SEED	SEED FOR 50 FEET	ROWS APART	APART IN ROWS	TIME OF PLANTING	READY TO USE
Artichoke	200	12 plants	4 ft.	4 ft.	Dec. to April	2nd Spring
Asparagus	150	50 roots	20 in.	1 ft.	Dec. to April	5 months
Beans, Bush	50 to 100	1-10c pkt.	2 ft.	6 in.	March to Aug.	8 to 12 wks.
Beans, Pole	30 to 100	1-10c pkt.	3 ft.	12 in.	April to Aug.	10 to 12 wks.
Beans, Lima	30 to 60	1-10c pkt.	2 ft.	10 in.	April to Aug.	12 to 14 wks.
Beets	300	2-5c pkts.	10 in.	6 in.	All year	10 to 12 wks.
Cabbage	1-5c pkt.	35 plants	20 in.	15 in.	All year	14 to 16 wks.
Carrot	2-5c pkts.	Double row	10 in.	Drill	All year	10 to 12 wks.
Cauliflower	2000	30 plants	20 in.	18 in.	Sept. to June	14 to 16 wks.
Celery		100 plants	20 in.	6 in.	March to Aug.	16 to 18 wks.
Corn, Sweet	1-10c pkt.	1 pkt.	2 ft.	18 in.	March to July 1	10 to 12 wks.
Cucumber	1-5c pkt.	1 pkt.	4 ft. bed	3 ft.	March to Aug.	10 to 12 wks.
Endive	1000	1 pkt.	1 ft.	10 in.	Sept. to March	14 to 18 wks.
Eggplant	1-5c pkt.	Transplant	Hotbed	2½ ft.	Mar. to April 15	8 to 10 wks.
Kale	1000	30 plants	10 in.	18 in.	All year	8 to 10 wks.
Kohlrabi	1000	1 pkt.	10 in.	Sow	All year	10 to 12 wks.
Lettuce	2-5c pkts.	2 pkts.	Dbl. row	12 in.	Cool weather	12 to 16 wks.
Cantaloupe	1-5c pkt.	Beds 5 ft.	5 ft.	6 ft.	March to July	14 to 18 wks.
Watermelon	100	1-5c pkt.	9 ft.	8 ft.	March to June	16 to 20 wks.
Okra	150	1-5c pkt.	2 ft.	18 in.	April to July	10 to 12 wks.
Onion Seed	500	2-5c pkts.	Dbl. row, 14-in bed	Drill	Sept. to April	24 to 28 wks.
Onion Sets		1 lb.	14 in.	3 in.	All year	14 to 18 wks.
Parsnips	300	1-5c pkt.	2 ft.	Drill	Aug. to March	14 to 18 wks.
Parsley	400	1-5c pkt.	10 in.	Drill	All year	12 to 14 wks.
Pepper	1000	1-5c pkt.	Hotbed	18 in.	Mar. 15 to May 15	10 to 12 wks.
Potatoes		5 lbs.	2 ft.	1 ft.	Feb. to August	10 to 14 wks.
Sweet Potatoes		50 plants	3 ft.	1 ft.	April to July	10 to 12 wks.
Pumpkin	100	1-5c pkt.	8 ft.	6 ft.	April to July	12 to 14 wks.
Peas	50	2-10c pkts.	Dbl. row, 14-in.	Drill 1 in. apart	Aug. 10, Dec. Apr.	14 to 20 wks.
Peas	500	2-5c pkts.	Dbl. row, 10-in.	Drill	All year	4 to 8 wks.
Radish	150	24 roots	3 ft.	2 ft.	Dec. to March	8 to 10 wks.
Rhubarb Roots	150	1 pkt.	3 ft.	2 ft.	April to May	18 to 20 wks.
Salsify	200	1 pkt.	10 in.	Drill	Sept. to March	14 to 18 wks.
Roselle	200	2-5c pkts.	12 in.	Drill	Sept. to April	7 to 12 wks.
Spinach	100	1-5c pkt.	3 ft.	3 ft.	Mar. 15 to Aug. 15	8 to 10 wks.
Squash, Summer	100	1-5c pkt.	6 ft.	6 ft.	Mar. 15 to Aug. 15	12 to 16 wks.
Squash, Winter	1000	2-5c pkts.	Dbl. row, 6-ft. bed	3 ft.	Mar. 15 to July 15	12 to 14 wks.
Tomato	1000	2-5c pkts.	12 in.	Drill	All year	8 to 12 wks.
Turnip	2000	2-5c pkts.				

The soil should be moist enough at time of planting to germinate the seed without irrigation. The depth of planting in heavy soil should be from ¼-inch for very small seed to 1 inch for beans and peas; in sandy soil the seed may be planted from ½-inch to 2 inches. In frostless sections the time of planting summer crops may be advanced a full month.

El Paso Seed Co.'s Planting Calendar

VEGETABLE CALENDAR FOR FIELD PLANTING

VARIETY	SEED PER ACRE	ROWS APART	APART IN ROWS	WHEN TO PLANT	TIME TO MATURE	APPROX. YIELD AND VALUE PER ACRE

Turnip.....	2 lbs.	Double row	Drill	All year	10 to 12 wks.	200

Tested Reliable Green Beans

Bean Culture For Home Gardens

During the early spring give sandy soil preference, but heavy soil in summer. When the ground is properly moistened and pulverized, plant Bush Beans one or two seeds every four inches, in rows twenty to twenty-four inches apart. If the soil is heavy, one-half inch is deep enough. Plant deeper in sandy soil. During the cool spring months plant shallow; during the hot summer months plant down to moist earth. Do not plant in soil that is too wet, nor irrigate immediately after planting, else the seed will rot. During the winter months do all irrigating in the morning, because the water from the pipe is warm and will help the growth. When applied in the evening the water chills the plants, cools the soil, retards the growth and causes mildew. During hot summer days irrigate in the late afternoon. Never sprinkle beans.

ADVICE. Watch for the slightest indication of mildew. When it appears spray with the Anchor Brand of Sulphur. This will not only arrest any further advance of mildew, but it will fertilize the soil and destroy any germ of fungi that may be there. For application use Acme Volunteer (see page 31) Duster.

A WORD ABOUT POLE BEANS. Many growers hesitate to plant Pole Beans because of the scarcity of poles. This objection is easily overcome, and the greater profit in growing the pole varieties should be sufficient reason for going to a little extra care. Plaster laths will answer the purpose and cost very little.

Burpee's Stringless Green Pod

This famous snap bean is a prime favorite with thousands of truckers and gardeners in the South and is also largely grown for canning purposes. It is one of the finest green-pod bush Beans in existence. The pods are medium green, five to six inches long, cylindrical, larger than those of the Red Valentine, but are quite as fleshy, of equally high quality and remain crisp and tender longer. This splendid sort is extremely early and enormously productive. It is a Bean of handsome appearance that will sell readily on any market. The quality is truly superb. The pods, even when fully grown, are meaty and juicy, lacking the faintest signs of any strings. They are tender and brittle, of very fine texture and delicate flavor. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; 1 lb., 35c; 2 lbs., 65c; 5 lbs., \$1.60; 10 lbs., \$2.75. Write for prices on larger lots.

Giant Stringless Green Pod

An exceedingly productive and handsome Beans. The plants are large, vigorous and spreading. Pods are large, 5½ to 6½ inches long, nearly round, straight, medium green. A few days later than Burpee's Green Pod, and makes an excellent substitute or succession for it when planted at the same time. About 66 days from planting to first picking. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; 1 lb., 35c; 2 lbs., 65c; 5 lbs., \$1.60; 10 lbs., \$2.75.

Early Six Weeks

This is an extra early green-podded Bean. The plants are large, hardy erect and very productive. The pods are 5 to 6 inches long, straight, flat, handsome light green when young. A fine shipper. About 50 days from planting to first picking. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.60; 10 lbs., \$2.75.

Kentucky Wonder Pole

The vines are vigorous, climbing well, and very productive, bearing pods in large clusters. The pods are medium, light green, very long, often reaching nine or ten inches, curved and twisted, nearly round and very crisp when young. One of the very best early pole snap beans for home garden or market. Postpaid, pkt., 10c; 1 lb., 35c; 5 lbs., \$1.60.

ASPARAGUS SEED

All kinds—Palmetto, Argentouil, Washington. Pkt., 5c; oz., 15c; ¼ lb., 30c; 1 lb., \$1.90, postpaid.

Pole Limas

You can't beat this Florida Butter variety for bearing early in the season. It blooms and bears profusely all through the season. It will make an abundant crop when others fail. Postpaid, pkt., 10c; ¼ lb., 15c; 1 lb., 40c; 2 lbs., 75c; 5 lbs., \$1.75.

King of the Garden Very prolific; large and desirable both for the home garden and for the market gardener. Postpaid, pkt., 10c; ½ lb., 20c; 1 lb., 40c; 2 lbs., 75c; 5 lbs., \$1.75.

Bush Limas

Fordhook Bush Lima

In order to get the best results, plant one foot apart in rows 3½ feet apart. It is an improvement over the well known Bush Lima because it is more prolific. It is a strong grower, more resistant to blight, and is more profitable to grow for the market because the pods remain green. This is of great advantage to the peddler, retailer and shipper. It has received universal praise. We recommend it to our customers for both home and market gardens—for the home garden because of its excellent flavor and productivity; for the market gardener because it is demanded by the shipper and consumer. Postpaid, pkt., 10c; ½ lb., 25c; 1 lb., 40c. By freight or express at purchaser's expense, 1 lb., 30c; 10 lbs., \$2.80.

Prolific Early Black Wax

An old well known popular variety. The most striking feature of this Bean is its habit of ripening a large portion if its crop earlier than other varieties, which is of great value to market gardeners and those who depend on being first in the market. Dwarf, bushy growth, very prolific and one of the earliest. Pods 4 to 5 inches long, usually somewhat curved, quite round, meaty, brittle and stringless, deep golden yellow, of excellent flavor. About 63 days from planting to first picking. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.60; 10 lbs., \$2.75.

NOTICE

When ordering Peas, Beans or Corn for shipment to Mexico or other foreign countries, add 14c per pound for postage.

The Blackeye Pea Postpaid, pkt., 5c; 1 lb., 25c.

E. P. S. Co.'s Selected Table Beets

Culture. Beets may be planted all the year round where the temperature does not linger below 30 degrees. Sow the seed 1 inch deep in well prepared, moist soil in rows 8 to 10 inches apart, or on ridges same as lettuce. Drill 8 to 10 pounds of seed per acre. Thin out to 1 plant every 3 inches, and transplant the discarded plants in any convenient spot about the garden. The Egyptian is a small, dark red, flat, smooth variety. It is sweetest and best for the table. Irrigate about every 2 weeks, unless the nature of the soil is such that more frequent irrigation is found to be necessary. Mulch the soil after each irrigation. Beets are ready for use in 10 weeks and continue in prime condition for another 10 weeks. One ounce of seed for 100 feet of row.

It is not generally known that Beet seed may be planted freely in the row and when 6 to 8 inches high it may be thinned to 1 plant for every 3 inches, and the plants pulled out may be cooked and eaten as spinach.

Swiss Chard may be thinned and eaten in the same way, but the Chard should be thinned to 1 plant to 10 inches. As it grows large the leaves may be broken off at the base of the stem, the foliage cooked as spinach and the stems as asparagus.

Both are very palatable.

Sugar Beets and Mangels

Sow 7 to 10 pounds per acre.

Culture. Mangels require a deep, rich soil, the richer the better. Sow from April to October in rows 18 inches to 2 feet apart. If medium sized Mangels wanted, thin to 8 to 10 inches apart in the row. If larger size desired, 12 to 14 inches apart and cultivate same as Sugar Beets.

As the feeding value of Sugar Beets and Mangel Wurzels becomes better known the acreage devoted to them is increased. They are the cheapest, most important, and profitable root crop for stock feeding purposes as has been proven by many State Experimental Stations and by thousands of prosperous dairymen and stock growers, who feed them largely. The value of these for stock feeding cannot be over-estimated. The results from their use are wonderful, as is clearly shown in the improved health and condition of the animals to which they are fed, the increased yield of milk in the cows, and the great saving of hay. Write for prices in large quantities.

Giant Feeding Half Sugar

Mangel By careful breeding there has been developed a Half Sugar Beet and Mangel, which is more valuable for feeding purposes than the old sort. This magnificent Mangel Wurzel Beet, while producing nearly as large a yield of roots as the most prolific Mangel, supplies a much higher nutritive value, the roots for feeding purposes being more valuable, pound for pound, than those of the best strains of sugar beets, and the yield, under favorable conditions, being nearly double. The roots grow partly out of the ground, and because of this, and their shape, the crop can be easily harvested. We can recommend this as one of the very best for feeding purposes, and are certain those who grow it will be more than pleased with results. Postpaid, pkt., 5c; ½ lb., 25c; lb., 50c.

E. P. S. Co.'s Crosby's

Egyptian

An improvement on Extra Early Egyptian, being as early, but a more desirable shape, color and quality. It is very sweet and tender, and a most valuable sort for early market, as it is ready before any other beet of equal quality. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; ½ lb., 50c; lb., 85c; 5 lbs., \$3.50; 10 lbs., \$6.50.

Detroit Dark Red

This is an ideal beet for all purposes. It cannot be excelled for the table; free from all fiber and very sweet. It is the best of all for pickling or canning. Even the tops are good when pickled. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; ½ lb., 50c; lb., 85c; 5 lbs., \$3.50; 10 lbs., \$6.50.

Half-Long Dark Blood

A half-long deep red beet. The best variety for winter and spring use. It is excellent to slice for pickles. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; ½ lb., 50c; lb., 85c; 5 lbs., \$3.50.

Mammoth Long Red

Roots are very large, uniformly straight, and well formed, considerably thicker and deeper colored than the common sort, with smaller top. Dark foliage, with skin bright red; flesh white, veined with rose-pink. Roots solid, attaining a large size. Produces an enormous bulk and tonnage. Postpaid, pkt., 5c; ½ lb., 25c; lb., 50c.

Swiss Chard

Giant Lucullus

The best garden variety, produces large tender stalks with early leaves. May start cutting in 35 to 40 days. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; ½ lb., 60c; lb., \$1.00; 5 lbs., \$4.00.

Selected Cabbage Seed

Culture. The secret of growing hardy plants is to thoroughly prepare the soil in the plant bed. Plow the soil to a depth of 8 or 10 inches, pulverize well. Sow in drills not too freely, about one-half inch deep, press the soil firmly over the seed; this is important. In about 6 weeks transplant in rows 3 feet apart, 1 foot in the row for Winnigstadt, 1 1/2 inches for large-heading varieties. Keep the crop well watered and cultivated, for when the growth is checked the seed head matures and bursts forth as soon as moisture is again supplied. This accounts for much cabbage going to seed.

Early Dwarf Flat Dutch

An excellent second early variety, producing large, solid, round heads, flattened on top, tender and fine grained. Highly valued for its quality and ability to resist heat. **Postpaid, pkt., 5c; oz., 25c; 1/4 lb., 75c; 1/2 lb., \$1.25; lb., \$2.50; 5 lbs., \$11.00.**

Late Flat Dutch

Same prices as above.

Copenhagen Market

A very early variety, producing large, round heads very early in the season, about as early as Jersey Wakefield. It is short stemmed, producing heads almost on the ground; leaves light green, medium size, and always tightly folded over the head. The plants, therefore, may be set closer together than most other early varieties. This new, large, round head, extra early Cabbage was originated in Denmark by an old Cabbage specialist, where nearly all of our best varieties of Cabbage originated. It has become a great favorite with market gardeners wherever grown. **Postpaid, pkt., 5c; oz., 25c; 1/4 lb., 80c; 1/2 lb., \$1.50; lb., \$2.75; 5 lbs., \$12.00.**

Golden Acre This very valuable new introduction is similar to Copenhagen Market, but several days earlier, and smaller. As the name indicates it is very profitable sort to grow. The size is just right and the earliness and uniform heading tendency make it one every market grower and home gardener should plant. **Postpaid, pkt., 5c; oz., 25c; 1/4 lb., 90c; lb., \$3.00.**

Danish Roundhead or Short Stemmed Hollander

Selected Stock.

This is the most popular of all late varieties for fall and winter use. The seed we offer was grown on Amagar Island, Denmark, and is not only genuine, but also of the highest standard of quality. It is an earlier, shorter stemmed improved strain of the Danish Ballhead. The heads are the right market size—not too large, very solid and heavy, weighing fully a fourth more than other varieties of equal size. **Postpaid, pkt., 5c; oz., 25c; 1/4 lb., 80c; lb., \$2.75.**

Early All-Head

This is an excellent sort, producing a good, solid head weighing 6 to 8 pounds. It is among the earliest sorts and is a very profitable sort to grow. The outer leaves are few and close planting can be made, as close as 18 inches in the rows and rows 2 feet apart. **Postpaid, pkt., 5c; oz., 25c; 1/4 lb., 80c; lb., \$2.75; 5 lbs., \$12.00.**

Superior Cauliflower

Cauliflower, although one of the most delicate vegetables is but little grown except by professional gardeners because of the erroneous notion that it is so difficult to grow that only skilled gardeners can produce it. Our cauliflower seed is grown in Denmark by expert growers, and is first class in every respect. Write for special prices on large lots.

No. 1 Earliest Express

Snowball J. M. This type matures approximately ten days earlier than the regular Snowball. The heads of the Express are slightly smaller and are very desirable for shipping purposes as well as the local market. **Postpaid, pkt., 15c; 1/4 oz., 75c; oz., \$2.00; 1/4 lb., \$7.00; 1/2 lb., \$13.00; lb., \$25.00.**

No. 2 Superior Early

Snowball H. S. This type seems especially adapted to our climate and soil. Suitable for either early or late planting. Under favorable conditions nearly every plant will make a fine, solid head of good size. The seed we are offering of this variety was imported by us direct from Denmark. **Postpaid, pkt., 15c; 1/4 oz., 75c; 1 oz., \$2.00; 1/4 lb., \$7.00; 1/2 lb., \$13.00; lb., \$25.00.**

No. 3 Self-Protecting

Snowball E. S. This new strain was introduced about 6 years ago by a Cauliflower specialist of Denmark. It possesses all the good qualities

of the best Early Snowball strains. The leaves are longer than the Snowball varieties, and unfold closely over the heads, giving a particularly attractive appearance when displayed for sale. The inner leaves almost cover the snow-white heads, bleaching them nicely, thus avoiding the necessity of early tying of the leaves, as is necessary with other early sorts. Another trait of distinction is its uniformity in maturing, enabling the grower to harvest practically all of the crop at one cutting. The heads are large, white, and solid. **Postpaid, pkt., 15c; 1/4 oz., 75c; oz., \$2.00; 1/4 lb., \$7.00; 1/2 lb., \$13.00; lb., \$25.00.**

We are listing above three of our strains, listed according to maturity and every strain is a proven moneymaker under YOUR particular climatic conditions. Each, producing a snow-white, true uniform ready market product, will mature at about 10-day intervals, one field being cut clean when the next strain is ready to move.

COLLARDS

SOUTHERN OR CREOLE

Grown for its large leaves which are cooked as cabbage or greens. **Pkt., 5c; oz., 20c; 1/4 lb., 35c.**

Carrots

Carrots are not alone one of the most wholesome of foods, supplying precious vitamins, but when half grown are one of the greatest delicacies possible to place on the table. Persons who say they do not like Carrots usually will be found never to have tried them when young. The seeds are very slow to germinate and they should be marked in the row with radishes or some other quickly maturing crop which will be harvested before the Carrots crowd. Mellow soil which will not bake over the seeds and will not harden in midsummer is the kind Carrots like. Plant in rows 18 to 24 inches apart and thin to 3 or 4 inches.

Early Chantenay 70 days. This excellent variety is earlier than Danvers, being ready to use in 70 days after sowing. It is slightly shorter and more stump-rooted, averaging 4½ inches in length, tapering slightly from well-set shoulders. It is smooth, of a deep orange color, and of high table quality. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.00; 10 lbs., \$7.50.

Guerrande or Oxheart Is a variety of very rapid growth, each attains a weight of more than 1 pound. Pkt., 5c; oz., 20c; ¼ lb. 35c; lb., \$1.00, postpaid.

E. P. S. Co.'s Early Roasting Ear Corn

Notice When ordering Peas, Beans or Corn for shipment to Mexico or other foreign countries by parcel post, add 14c per pound for postage.

Extra Early Adams 65 days. This variety is not grown for its eating qualities (as it is not very sweet) but is planted for the early market, as the higher prices that are paid for the first roasting ears make it profitable. Postpaid, pkt., 10c; ½ lb., 15c; lb., 25c; 5 lbs., \$1.00; 10 lbs., \$1.80.

Parsons' White Dent 70 days. One of the quickest maturing varieties known. Just the Corn to plant after harvesting wheat or oats. It has been successfully tried out in this section. Postpaid, pkt., 10c; lb., 25c; 5 lbs., \$1.00.

Trucker's Favorite 70 days. Makes fine roasting ears in 65 to 70 days. Postpaid, pkt., 10c; lb., 25c; 5 lbs., \$1.00.

Roasting Ear Sweet Corn

Golden Bantam (SUGAR). 75 days. It is not only the sweetest, but also one of the hardiest, and what it lacks in size is more than made up by its other grand qualities.

Stowell's Evergreen (SUGAR). 97 days. This is not only the most celebrated, but the most popular of all varieties. Although not an early sort, it is, without any exception, the best for table use of the entire lot, although quite late.

Select Danvers Half-Long

75 days. This is a very popular and universally planted Carrot. It is one week later than Chantenay, and the diameter of the root is slightly smaller. It is a half-long type, averaging 5½ inches in length, tapering to a blunt point. The color is a rich, deep orange, and the table quality is excellent. Its yield is greater per acre than that of any other sort; in size, shape, color, sweetness and flavor, it is ideal. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.00; 10 lbs., \$7.50.

Nantes Half-Long Scarlet

70 days. For extra sweetness this is all by itself. It is of good shape and size. The leaves are fine and the roots almost cylindrical, very smooth, and grow about 6 inches long; the flesh is entirely red and very sweet and almost entirely without a core. This is strongly recommended to home gradeners as the best Carrot for table. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.00.

New Chantenay Special

No. 403 70 days. A fine well colored bunching Carrot, somewhat longer than the Danvers Half Long, but differs somewhat from the tapering pointed root of the Danvers in that the New Chantenay Special is more rounded or stump-rooted. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 35c; 1 lb., \$1.00; 5 lbs., \$4.00.

Hickory King This Corn comes nearer being all corn and no cob than any other, the corn being so large and the cob so small that if you break an ear in two, one grain will cover the cob. It is early. The ears, from 7 to 9 inches in length, are generally borne 2 to 4 ears per stalk, making it very productive. It makes a beautiful roasting ear, is highly desirable where a pure white Corn is wanted for meal. Postpaid, lb., 25c; 10 lbs., \$1.50.

Mexican June Corn Our Native June Corn has been produced originally from seed imported from Central Mexico. The stalks under favorable conditions grow from 7 to 8 feet high, and yields average from 60 to 75 bushels per acre. For best results it should be planted during the months of June and July. Postpaid, lb., 25c; 10 lbs., \$1.50.

Pop Corn

White Rice and Golden Queen
Postpaid, pkt., 10c; lb., 40c.

Country Gentleman (SUGAR). 95 days. The ears average 9 inches in length and are borne from 2 to 5 and sometimes 6 on each stalk. The cob is small and very closely packed from tip to butt with slender, pure white kernels of the finest quality. If you try this variety you will like it.

Price of above, postpaid, pkt., 10c; lb., 35c; 5 lbs., \$1.60; 10 lbs., \$3.00.

Superior Cucumbers

of Best Salad and Pickling

Kinds Field Culture. Plant from March to August in hills 4 to 6 feet each way, 8 to 10 seeds to a hill. Cover an inch deep. When danger of insects is past, thin out the plants, leaving 3 or 4 of the strongest in each hill. It is ready for the table in 10 weeks from planting seed. One ounce of seed will plant 50 hills; two pounds to the acre.

Davis Perfect 70 days. The fruits of this type are very deep green in color, rather long, averaging about 10 inches or more in length and quite slender. Flesh is crisp, tender and of fine quality. Ready for market in about 70 days. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 5 lbs., \$9.50, postpaid.

Boston Pickling 50 days. A very early pickling strain that is the standard everywhere; retains its freshness for a long period, tender and of excellent flavor; matures in about 50 days. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00, postpaid.

Improved Long Green

75 days. The fruits of this popular Cucumber are very long, often measuring 12 to 15 inches when mature, very uniform, slender, and of a beautiful green color. This variety furnishes some fruits very early but matures the bulk of its crop rather late; fine for slicing and excellent for pickles. Very popular as a market gardener's Cucumber and for home garden. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 5 lbs., \$9.50; postpaid.

Early Fortune 66 days. An excellent shipper and very popular in the Corpus Christi section. Fruits are very early, dark green and about 7 to 8 inches in length; flesh very thick and firm, with very small seed. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 5 lbs., \$9.50, postpaid.

Cantaloupe

"Perfecto" Orange Flesh

No 1 Seed. Orange flesh. This variety is recognized as the highest development in cantaloupes and is especially recommended for planting where melons are inclined to rust as it is more rust resistant than most sorts. Well grown, practically all these melons pack 12 to the jumbo flat crate. The netting is well developed and closely laced, covering the entire melon "solid net." The interstices between the netting are small and bright green changing to orange green when full ripe. The flesh, a rich orange-salmon, is very deep and the color shows through the rind where the melon touches the ground a day or two before the melon will slip, enabling the careful picker to pick very closely and accurately. The quality is unexcelled. The flesh is fine grained, very sweet and spicy. Market growers now plant thousands of acres to Perfecto cantaloupes. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50; 5 lbs., \$7.00.

Improved Burrell's Gem

Has established itself as a standard melon. It is one of the largest yielders. The shipper calls for it because it is solid and carries well in transit. The consumer wants it because of its excellent flavor. The growers all want our seed because we have the best strain. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.50; 10 lbs., \$10.00.

Imp. Hale's Best Early

The earliest of all Rocky Ford Cantaloupes. It is prolific, and usually the first setting of the fruit is very heavy, mostly ripening at the same time. It is of fine shape and size, and inclined to run to solid quality. Where early melons are an object, or for dry localities, or under irrigation, this is the most valuable cantaloupe. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50; 5 lbs., \$7.00.

Reliable Casaba and Honey Dew Melons

Golden Beauty Casaba

Postpaid, pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 5 lbs., \$8.75.

Winter Pineapple Casaba

Postpaid, pkt., 5c; oz., 20c; ¼ lb., 45c; ½ lb., 85c; lb., \$1.50; 5 lbs., \$6.25.

Green Fleshed Honey Dew

This melon has won its way into favor wholly because of its excellent flavor and good keeping qualities. It is enormously prolific; it is ready to pull when the green luster has changed toward a creamy yellow. It is not ready to be eaten until, like the Casaba, you can make an impression with the thumb as in a mellow apple. The picture is typical of its shape; the average size is about as large as a coconut, but the smaller sized Melons are not inferior in flavor. Every melon is a good one. Flesh is light green and sweet as honey. The rind is light green or silvery gray in color, smooth as an egg and hard as the rind of a winter squash. It is therefore a good shipper. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 65c; ½ lb., \$1.00; lb., \$2.00; 5 lbs., \$8.75; 10 lbs., \$16.00.

New Golden Rind Honey Dew

This new melon is very attractive. The rind is a rich golden color, even on the under side. The melon does not spot or sunburn like the Honey Dew.

E. P. S. Co.'s Mexican Giant

Muskmelon Postpaid, pkt., 5c; oz., 20c; ¼ lb., 45c; ½ lb., 85c; lb., \$1.50; 5 lbs., \$6.25.

Eggplant

New York Improved Spineless

This type is very early and entirely spineless, bearing extra large fruits of a deep purple color; very smooth, with white, delicious flesh. Pkt., 5c; oz., 40c; ¼ lb., \$1.50; lb., \$5.50, postpaid.

Black Beauty

Pkt., 5c; oz., 40c; ¼ lb., \$1.50; lb., \$5.50, postpaid.

Dependable Lettuce Seed

New York Special Lettuce

No. 12 The standard head Lettuce grown so largely in California, Arizona, Colorado, New Mexico and Texas, and misnamed by the produce trade as Iceberg. Produces immense heads as solid as a cabbage, often 15 to 16 inches across. The interior is beautifully blanched, creamy white, crisp, delicious and very tender. It is a very strong, robust growing variety, resists both hot and dry weather, and is slow to run to seed. The outer leaves are attractive deep green, broad, frilled at edges. Good for September, December and January planting; stand cold.

New York Special Lettuce

No. 41 This Lettuce is fast superseding Big Boston and others varieties of head Lettuce, as it is hardier, larger, more solid and crisp than the other varieties and stands long distance shipping better.

Nos. 12 and 41

OLD SEED

Pkt., 5c; oz., 30c; ¼ lb., 60c; lb., \$2.00; 5 lbs., \$7.50, postpaid.

NEW SEED

Pkt., 5c; oz., 25c; ¼ lb., 50c; lb., \$1.25; 5 lbs., \$5.00, postpaid.

Hanson Postpaid, pkt., 5c; oz., 20c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.50.

Iceberg This is next to New York Market as the heading variety for the Southwest for the summer planting. Postpaid, p.t., 5c; oz., 25c; ¼ lb., 50c; ½ lb., 80c; lb., \$1.50. Ask for special prices on larger quantities.

Chicken Lettuce This variety of Lettuce should not be confused with the regular heading or loose-leaved varieties. The plant grows very much like kale, to a height of 4 to 5 feet, with much growth of leaf. It is used mainly for chicken and rabbit feeding. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50; 5 lbs.; \$4.50.

Big Boston Very large, smooth-leaved, solid heading variety grown extensively throughout the East and South. Postpaid, pkt., 5c; oz., 20; ¼ lb., 35c; lb., 1.00; 5 lbs., \$4.50.

Paris White Cos (Romaine). This might well be spoken of as the "Aristocrat," for the reason it is used almost exclusively at aristocratic clubs and hotels for salads. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.00.

Early Curled Simpson

(Loose Bunching Variety). This is a very hardy type, easy to grow, forms no definite head, having light green, curled leaves. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50, postpaid.

Mustard

E. P. S. Co's Triple Curled

The plants are of vigorous growth, and have beautiful dark green leaves which curve outward like fine ostrich plumes. It stands well, even during the hottest summer months, and makes delicious "greens." It is a heavy yielder. Postpaid, pkt., 5c; oz., 20c; 4 oz., 35c; ½ lb., 50c; lb., 85c; 5 lbs., \$3.75.

Southern Giant Curled

The true curled-leaf variety so popular in the South for planting in the fall. Our stock of this favorite variety is very fine and yields a heavy crop of greens. Postpaid, pkt., 5c; oz., 20c; 4 oz., 35c; ½ lb., 50c; lb., 85c; 5-lb. lots, \$3.75.

Chinese White This is a delicious vegetable and flavors strongly of Brussels Sprouts, being less pungent than the American varieties. It is greatly relished by the Orientals, and can be seen all the year round at vegetable stands kept by the Japanese and Chinese. Postpaid, pkt., 10c; oz., 40c; ¼ lb., \$1.35; lb., \$4.00.

Chinese Green This is an Oriental vegetable, and like the White Mustard, is grown all the year around, but like our American spinach, thrives best in the winter season. Postpaid, pkt., 10c; oz., 40c; ¼ lb., \$1.35; lb., \$4.00.

Salsify

Mammoth Sandwich Island

This is an improved type and the largest and most profitable in cultivation. It is white in color and most satisfactory in every way. Postpaid, pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Okra

A good and healthful vegetable for a summer crop.

Culture. Plant seed from April 1st until July. Plant 6 to 10 inches apart in rows 3 feet apart. One ounce will plant one hundred feet of row.

White Velvet On account of its attractive white color, good flavor and tender pods when quite young, it has long been a favorite variety. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; lb., 90c; 5-lb. lots, \$4.25.

Mammoth Long Green Pod

Pods are an intense green in color, of unusual length, 9 or 10 inches, tender, and of good flavor. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; lb., 90c; 5-lb. lots, \$4.25.

Parsley

Culture same as lettuce.

Champion Moss Curled Extra dark. Leaves are crimped and curled, giving a most beautiful decorative appearance. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

Parsnip

Hollow Crown This is the favorite home garden sort to grow in a very mellow soil because it frequently grows 2 feet long, is very tender and has a particularly good flavor. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

Watermelons

Klondike This is now indisputably the most popular melon on the market. Why? Because it has a flavor quite as distinct from other watermelons as is a Bartlett pear from any other pear, and is sweeter even to the thin rind than any other. It is popular with the grower because it is wonderfully adapted to dry farming, wonderfully prolific, early, long and continuous bearing. Has small seed. Plant 15 to 20 feet apart. **Postpaid, pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 5 lbs., \$8.75.**

Monte Cristo or Kleckley's Sweet This splendid watermelon has become popular wherever grown. The melons are very large, oblong in form, and with dark green skin, thin rind, which is very brittle, too brittle to attempt to ship a very great distance. Flesh bright scarlet, with solid heart, delicious, crisp, sugary and splendid in every way. Handsome in appearance; ripens early, and is especially desirable for home garden. Time for ripening 85 days; average weight 25 pounds. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 5 lbs., \$4.50.**

Stone Mountain This is undoubtedly one of the very best of melons, and is sure to become one of the most popular. It is extra large, weighing as much as 75 to 80 pounds if carefully cultivated; is round or nearly round in shape, with a beautiful dark green rind. **Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.50.**

Irish Grey A distinct and valuable new variety. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 5 lbs., \$4.50.**

Black Seeded Chilian Preferred because of its earliness and black seed, which gives it preference. **Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.50.**

White Seeded Chilian Preferred because of its large average size. **Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.50.**

Tom Watson An extra long melon of striking appearance, uniform in shape and quality. Its luscious, crimson flesh is as sweet as honey, melting and of superb flavor. Tom Watson is a long, green melon, covered with a fine netting, giving it a most attractive appearance. The average melon weighs 40 to 50 pounds. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.50.**

Wonder Large and oblong, somewhat resembling the Watson, only thicker. The color is a dark solid green. The rind is thin but tough. The flesh is red, heart solid, and does not show a hollow. Is an exceptionally fine eating Melon for home use and market. The seed is white, with but few in the Melon. Is extremely prolific. We recommend it very highly and feel sure our customers will be more than pleased with it. **Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 5 lbs., \$4.00, postpaid. Not prepaid, 10 lbs. or over at 70c per lb.**

We Are Headquarters for Reliable Onion Seed

El Paso The King of White Onions—Its Mildness of Flavor and Tenderness are Unsurpassed. The largest White Onion. Grows to a remarkable size—average diameter from 5 to 7½ inches. **Postpaid, pkt., 5c; oz., 25c; ¼ lb., 90c; lb., \$3.50; 5 lbs., \$16.25.**

White Valencia In flavor, uniformity, and mildness this new onion is just as good as the now famous Yellow Valencia. It is a good keeper, good shipper and the pure white skin is of course most desirable. This onion may be successfully grown in any soil where other onions are being produced. **Postpaid, pkt., 5c; oz., 35c; ¼ lb., \$1.25; ½ lb., \$2.00; lb., \$4.00; 5 lbs., \$17.50; 10 lbs., \$30.00.**

Crystal Wax Bermuda The Crystal Wax is a medium sized pure waxy white onion and is one of the mildest sorts grown. The seed of this variety is generally sown in seed beds and the plants transplanted to the field when they are 5 or 6 inches high. Planted the latter part of September they mature in April, May and June, and usually bring the highest market price. It is grown extensively in Southern California and Texas. **Postpaid, pkt., 5c; oz., 25c; ¼ lb., 90c; lb., \$3.50; 5 lbs., \$16.25. Write for prices in large quantities.**

E. P. S. Co.'s Yellow Valencia Onion The Most Popular Onion on the Local Market. Very large, light yellow, globe-shaped, small top, good shipper; average weight ½ to 1 pound. Plant from September to February 15th. **Postpaid, pkt., 5c; oz., 25c; ¼ lb., 90c; lb., \$3.50; 5 lbs., \$16.25.**

Green Bunching Onions

Many think any white onion will do for a bunching onion, but this is not true. Our growers for fancy trade have learned that we have the best strain of seed for this purpose. **Postpaid, pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.**

Garden Peas

Culture. For early peas the soil should be light and warm, but for the main crop, a heavier soil is better. Fresh manure and very rich or wet soil should be avoided, as they cause a rank growth of vines at the cost of quality and quantity. Peas are very hardy, enduring cold well. The smooth varieties, such as Alaska or Earliest of All, are the earliest and hardiest, and may be planted in January in the Southwest or as soon as the frost is out of the ground in the North. The wrinkled varieties are sweeter and more tender, but are liable to rot if planted before the ground is warm.

Write for special prices on peas in large quantity.

Alaska or Earliest of All

60 days. This extra fine pea has become the standard extra early variety for market gardeners and canners of all the early blue peas. Height 2½ feet, foliage and pods light green; pods 2½ inches long, very straight and square-ended, containing 6 to 7 light green peas of excellent quality, retaining its color after cooking. 60 to 70 days from seeding to first picking. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 10 lbs., \$2.75.

Dwarf Telephone 75 days. Medium tall; pods very large; medium green peas, very sweet; a favorite with shippers probably because it carries well and commands a high price because of quality. For years this variety was grown more extensively for shipping than any other. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50; 10 lbs., \$2.75.

Peerless Pepper

Anaheim Chili Pepper

Eighty days. Anaheim Chili is desired above all others for culinary use because of its agreeable pungency. Other pungent varieties are intolerable, not so with the Anaheim Chili. That is what makes it the best seller in the market and the best pungent variety for canning. Postpaid, pkt., 5c; oz., 50c; ¼ lb., \$1.65; lb., \$5.00; 5 lbs., \$22.50.

California Wonder Bell

Seventy-five days. It is the best large fruited Pepper in existence, very smooth, heavy, free from creases and wrinkles; meat thick, tender, and of finest flavor. It is fast replacing other varieties in the home garden on account of its excellent quality, and with the shippers on account of its fine appearance after a long journey to distant markets. Postpaid, pkt., 5c; oz., 65c; ¼ lb., \$2.00; lb., \$7.00.

Improved Laxtonian

65 days. A large-podded dwarf variety on the order of Gradus, and is often called the Dwarf Gradus. The vines are vigorous and productive, averaging 15 to 18 inches high, and when in bearing are filled with immense dark green pods, 3½ to 4 inches long, straight and pointed, containing 8 to 10 large, green peas. On account of its earliness, productiveness and large dark green pods and peas, is being grown largely for southern and eastern markets. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 10 lbs., \$2.75.

El Paso Wonder Peas

78 days. New but wonderful. Ideal for main crop, because it is very hardy and resists mildew to a remarkable degree. Grows 2 feet tall, branches wonderfully; enormously productive of large solid pods, similar to but longer than Stratagem. Its great merit is its ability to resist the summer heat. Therefore, we recommend it for all year. We cannot praise it too highly. Postpaid, pkt., 10c; ¼ lb., 15c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50; 10 lbs., \$2.75.

American Wonder Grows 10 to 12 inches high, is an abundant producer of fine flavored Peas. Pkt., 10c; ½ lb. 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.25, postpaid.

NOTICE—When ordering Peas, Beans or Corn for shipment to Mexico or other foreign countries by parcel post add 14c per pound for postage.

Chinese Giant 80 days. An enormous fruiting variety, about double the size of Ruby King. Notwithstanding its size, it is very early and prolific. Flesh is thick, tender, mild, and sweet. Unexcelled for salad or stuffed as mangoes. Postpaid, pkt., 5c; oz., 65c; ¼ lb., \$2.00; lb., \$6.50; 5 lbs., \$37.00.

Mexican Floral Gem

80 days. This beautiful yellow pepper became popular several years ago. It is 1½ inches in diameter, 1½ to 3 inches long, delightfully pungent with a flavor quite distinct from other peppers, and commands an independent price. The supply has not yet caught up with the ever-increasing demand. This pepper turns from green to a beautiful waxy yellow. When mature it is red. It is marketed when yellow. Postpaid, pkt., 5c; oz., 75c; ¼ lb., \$2.25; lb., \$8.00; 5 lbs., \$37.00.

Field and Pie Pumpkins

One ounce of seed will plant 20 hills; 1 pound an acre.

Tennessee Sweet Potato

Postpaid, pkt., 5c., oz., 20c; ¼ lb., 35c; lb., \$1.00; 5 lbs., \$4.50.

E. P. S. Co.'s Green Striped

Cushaw Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50; 5 lbs., \$7.00.

Kohl-Rabi

Early White Vienna

Postpaid, pkt., 5c; oz., 30c; ¼ lb., 85c; lb., \$3.00.

E. P. S. Co.'s Tested Radish Seed

Scarlet Globe

This variety is one of the most popular of all the turnip radishes. Very extensively used for marketing. It is of quick growth, small leaves, and of finest quality. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., 80c; 5 lbs., \$3.50; 10 lbs., \$6.50.

Early Scarlet Turnip

This is a favorite for both market and home gardens. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., 80c; 5 lbs., \$3.50; 10 lbs., \$6.50.

Early Round Scarlet, White Tipped

A prime favorite for all purposes. It is medium sized, has short foliage; color very deep scarlet, with white tip, and is very tender and mild. One of the best all-around early varieties for outdoor planting for market or home garden. Postpaid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., 80c; 5 lbs., \$3.50; 10 lbs., \$6.50.

Early Long Scarlet, Short Top

(Finger Radish). One of the best forcing varieties we have to offer.

Large White Chinese

This is a winter radish of deliciously sweet flavor.

White Icicle

A long, slender radish of a beautiful transparent whiteness, which makes it very attractive on the market or for home use.

Chinese Rose Winter

Japanese All Season

Delicious; sweet.

Prices on many above five varieties: Post-paid, pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00.

Tested Reliable Squash

Early White Bush

The well known White Scalloped or Patty Pan Squash. One of the earliest to mature, very productive; skin and flesh a light cream color. A very popular variety for shipment to northern markets, as well as being a general favorite for home gardeners everywhere. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 30c; lb., \$1.00; 5 lbs., \$4.00; 10 lbs., \$7.50.

Yellow Summer Crookneck

Plants are very productive and early bearing. Skin of fruit orange-yellow and thickly warted. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 40c; lb., \$1.25; 5 lbs., \$5.50; 10 lbs., \$10.00.

Improved Green Tint White

Bush Scallop

Similar to the well-known White Bush Scallop, but selected for the darker green fruit which holds its color longer and makes it very desirable for market purposes. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.50; 5 lbs., \$5.75.

Italian Squash

Is a bush variety, and should be planted 6 feet apart. It should be used when quite young. When served it has a rich, creamy flavor not equalled by any other squash. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 45c; lb., \$1.25.

Warted Hubbard

This very fine variety much resembles the original Hubbard, except that it

is larger and more covered with warts. Can be kept until late spring. The shell is very hard and dry. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 45c; lb., \$1.25; 5 lbs., \$5.50; 10 lbs., \$10.00.

Mexican Squash

The favorite Mexican Squash. Like the Italian Squash it should be eaten when quite young, 4 to 6 inches long. It is a delicious summer variety; do not hesitate to plant it. It is very prolific, a few hills will suffice to keep the family well supplied the entire summer. This squash is a big money maker for the market gardener, as it commands from 5c to 10c per pound more than any other variety. Some of our market gardeners near El Paso plant as many as 5 acres. Make first planting as early as the weather will permit. Second planting about August 15th for late crop. Postpaid, pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.75; 5 lbs., \$7.50; 10 lbs., \$14.00.

E. P. S. Co.'s Finest Select Tomatoes

E. P. S. Co.'s New Stone

80 days. Our strain of this good old variety is recognized as the greatest shipping, canning and home garden type ever introduced. On account of firm flesh, desirable size and well established character for acclimation, it is considered the finest strain grown in the Southwest. Market gardeners have grown to thoroughly depend upon its uniformity and proclaim it the greatest of all canning or market tomatoes. **Postpaid, pkt., 5c; oz., 45c; ¼ lb., \$1.40; lb., \$5.00.**

Marglobe (State Certified). 80 days. A Wonderful New Variety. A cross between Livingston's Globe Tomato and a French variety by the name of Marvel. It is a bright red variety not only on the surface but all the way through. It is about the size and shape of Livingston's Globe. One of the best features is that it is resistant to wilt and nail head rust disease. An excellent shipping and market variety. Has very small core. **Postpaid, pkt., 5c; oz., 50c; ¼ lb., \$1.75; lb., \$6.00.** Put up in 1-lb. sealed bags. 5 lbs. and up, \$5.00 per lb.

Pritchard (Scarlet Topper)

(State Certified). 80 days. Wilt resistant, of the type of plant known as self-topping or self-pruning. Mid-season to late and a heavy cropper. Fruits globe-shaped, deep scarlet smooth and solid. A good home and market variety and very popular for shipping and canners. **Postpaid, pkt., 5c; oz., 50c; ¼ lb., \$1.75; lb., \$6.00.** Put up in 1-lb. sealed bags. 5 lbs. and up, \$5.00 per lb.

Choice Spinach Seed

Bloomsdale Savoy 40 days. This sort is also known as the Norfolk Savoy Leaved. It is a very early variety and one of the best to plant in the fall for early spring use. The plant is of upright growth, with thick, glossy, dark green leaves of medium size. Seed round. This is the leading variety used in Texas and Virginia. We sell many tons of this seed to commercial growers. **Postpaid, pkt., 5c; oz., 10c; lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.** Write for prices on larger amounts.

Prickly Winter 46 days. A long standing, late maturing sort; plant very large, vigorous and hardy; leaves round, thick, medium sized, dark green. A splendid variety for seeding in the fall. **Postpaid, pkt., 5c; oz., 10c; lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.** Special prices on larger quantities on above varieties.

Table Turnips

E. P. S. Co.'s Purple Top

White Globe 60 days. This type of turnip is more largely grown than any other, both for table use and feeding stock during the winter. It is in fine condition for table use when of medium size, but should be allowed to grow large when used for cattle feeding. It is globular in shape, very handsome and of superior quality. The flesh is white and skin white, with purple at portion which grows above the ground. It is in best condition for table use when roots are about 3 inches in diameter. Grows rapidly and produces large crops. It keeps well and is one of the best varieties grown; very largely used for market. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.50.**

Break o' Day (State Certified). 75 days.

This tomato has caused a sensation among tomato growers. It is an early strain of Marglobe, but distinctively different. It is a marvelous advance in tomato culture. It has been highly praised by the National Garden Bureau, and the U. S. Dept. of Agriculture. Many growers and shippers as well as canners believe that it is the coming tomato. It was bred by the U. S. Dept. of Agriculture. It is a cross between Marglobe and Marvana and it is disease resistant. **Postpaid, pkt., 5c; oz., 75c; ¼ lb., \$2.50; lb., \$7.50.** Put up in 1-lb. sealed bags. 5 lbs. and up \$6.00 per lb.

El Paso First Early 65 days. One

of the earliest, absolutely smooth tomatoes on earth. A week earlier than the Earliana and as large as the Dwarf Stone. It is similar to the Earliana. The plant is compact, branching freely, the fruit hanging in clusters of 6 to 10 fruits, both in the crowns and at the forks of the branches. The fruits are uniform, very smooth and most attractively shaped. This tomato does not crack and does not carry the usual green core. The skin is reasonably tough, which makes it excellent for shipping. The color is of a very pleasing red and brings the highest prices in markets where a red tomato is in demand. It will continue to bear and ripen fruit until frost. The fruit will average almost 3 inches in diameter and about 2½ inches in depth. **Postpaid, pkt., 5c; oz., 50c; ¼ lb., \$1.75; lb., \$6.00.**

Monstrous Leaved Viroflay

45 days. The market gardener's favorite for fall or spring sowing. Plant of upright growth, with an abundance of heavy, broad, thick, arrowshaped, attractively curled and crumpled dark green leaves of finest quality and appearance. Desirable for canning because of its upright, clean leaves. **Postpaid, pkt., 5c; oz., 10c; lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.** Special prices on larger quantities.

Long Standing Round

45 days. A rapid growing variety, forming clusters of large, very thick, wrinkled leaves. Very popular with market gardeners as it is slow going to seed. **Postpaid, pkt., 5c; oz., 10c; lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.** Special prices on larger quantities.

Yellow or Amber Globe

65 days. One of the best yellow-fleshed varieties, grown usually for stock feeding. The roots are of large size and of globular shape. The skin is of clear yellow, except the top, which is tinged with green. The flesh is light yellow, fine grained and sweet. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.50.**

RUTABAGA American Purple Top

90 days. (Long Island Improved). Very hardy and productive. It is of American origin and is the best of the yellow purple top Rutabagas. The flesh is very tender and sweet. **Postpaid, pkt., 5c; oz., 15c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.50.**

Insecticides and Fungicides

...All prices are f. o. b. here; when ordered sent by mail add postage. See parcel post rate....

FAREWELL TO INSECTS!

GOODBYE WORMS!

Protect your garden and conservatory from chewing and sucking insects. One spray for both purposes. Also for worms, beetles and ground insects. Efficient and pleasant to use. No disagreeable odor.

SAFE—PLEASANT TO USE

Red Arrow sprays freely without clogging the nozzle and stays in solution without agitation. It is free from irritating fumes and is harmless to human beings and animals.

GOES FARTHER—COSTS LESS TO USE

The dilutions given below are effective against Aphis, Leaf Hoppers and similar soft-bodied insects. Stronger dilutions are recommended for "tough bugs."

- ¼ pint makes 34 gals. spray, \$ 1.00
- 1 pint makes 136 gals. spray, 2.00
- 1 quart makes 275 gals. spray, 3.70
- 1 gal. makes 1100 gals. spray, 12.00

Trial size, 35c, makes 30 quarts spray. Can be mailed.

F. O. B. El Paso.

- 2 lbs.— 3.35 makes 160 to 500 gals. spray
- 10 lbs.— 10.75 makes 800 to 2500 gal. spray

**EL PASO SEED COMPANY'S
IMPROVED KLECKLEY SWEET — ALSO CALLED MONTE CRISTO**

This fine new Watermelon has been very popularly received. For a long time the old variety, Kleckley Sweet, has been the Standard home garden melon in the Southwest and is popular all over the country. It is not as good as it once was but at its best it could not compare with this fine new variety which we call Imp. Kleckley Sweet. This new melon is regular in shape, larger, sweeter, of better quality and better in every way than the old Kleckley. It is large, heavy, oblong, an even dark green skin, rather thin rind, rich bright scarlet flesh and an all-round fine melon for home and nearly market use. There can hardly be a typical farm home in the entire Southwest nor even a good sized town garden without at least a few hills of good, sweet home grown melons to serve crispy cold on hot summer days. This cooling dark green melon with its frosty red heart, and and it has a large and generous heart, surely is a refreshment delicious. **Packett, 5c. Oz., 15c. ¼ Lb., 30c. Lb., \$1.00. 5 Lbs., \$4.50. Postpaid.** Write for our closest larger quantity prices, on the amount of seed you will need when ready to buy. It will pay you.
